## IOL Chemicals and Pharmaceuticals Limited

December 31, 2018

### Ratings

Facilities	Amount (Rs. crore)	Rating <sup>1</sup>	Rating Action
Long term Bank Facilities	429.33	CARE BBB+; Stable (Triple B Plus; Outlook: Stable)	Revised from CARE BBB-; Stable (Triple B Minus; Outlook: Stable)
Short term Bank Facilities	150.00	CARE A2 (A Two)	Revised from CARE A3 (A Three)
<b>Total Facilities</b>	<b>579.33</b> (Rs. Five hundred seventy nine crore and thirty three lakh only)		

Details of instruments/facilities in Annexure-1

### Detailed Rationale & Key Rating Drivers

The revision in the ratings assigned to the bank facilities of IOL Chemicals and Pharmaceuticals Limited (IOL) takes into account the improvement in the operational performance of the company reflected by significant growth in total income and expansion in margins resulting in healthy growth in cash accruals. The revision in ratings also factors in improvement in financial risk profile marked by reduction in gearing and strengthening of debt service metrics. The rating continues to derive comfort from the experience of the promoters and the management team, integrated manufacturing facilities and well-established market position in key product manufactured by it.. The ratings however, remain constrained by raw material availability and price volatility risk, working capital intensive nature of the operations and significant product concentration in revenue profile.

Going forward, the ability of the company to report envisaged improvement in operational performance, diversify revenue stream and register improvement in overall gearing would be the key rating sensitivities.

### Detailed description of the key rating drivers

#### Key Rating Strengths

**Improvement in operational performance:** The total income of IOL grew to Rs. 986.32 crore during FY18 (refers to the period April 1 to March 31) (PY: Rs. 713.75 crore) driven by increase in sales quantity and higher sales realizations. Its net profit margin also increased to 2.81% in FY18 (PY: 0.65%). The company has shown further improvement during H1FY19 (refers to the period April 1 to September 30) and reported a total operating income of Rs. 794.10 crore as against Rs. 453.13 crore in H1FY18 on account of expansion in manufacturing capacity of Ibuprofen amid supply constraints and PAT margin of 6.65%. (PY: 1.64%).

**Improvement in financial risk profile:** The overall gearing of the company improved to 2.09x as on March 31, 2018 (PY: 2.49x) and 1.53x as on September 30, 2018 on account of accretion of profits to net worth and scheduled repayments of term loans. The total debt to GCA also improved to 9.08x as on March 31, 2018 (PY: 15.18x) and 2.87x as on September 30, 2018 owing to high cash accruals backed by increase in profit margins. Also, the interest coverage ratio improved to 1.96x during FY18 (PY: 1.53x) and to 4.18x during H1FY19 (H1FY18: 1.71x) owing to higher total income and resultant increase in PBILDT.

**Experienced promoters and management team:** The promoter Mr. Varinder Gupta has more than three decades of experience and is ably supported by Mr. Vijay Garg (Joint Managing Director) who is having substantial experience with IOL and other related industries. The management team is also supported by a highly experienced and technically qualified team of professionals at various designations.

**Well established business position:** IOL has strong market presence in the chemical and pharmaceuticals industry and its overseas customers are spread across more than 50 countries including Brazil, China, Hungary, Russia, USA etc. IOL's product portfolio is broadly divided into two categories viz., chemicals and APIs. Diversified product portfolio helps the company to capitalize various opportunities present in the market and in-house production of various raw-material gives cost competitive advantage over its competitors.

**Integrated manufacturing facilities:** IOL has an integrated manufacturing facility for chemicals and APIs. The chemical manufacturing facilities of the company also act as backward integration for final pharmaceutical products (like Ibuprofen). The existing manufacturing facilities of the company act as a platform for manufacturing APIs with capability to manufacture most of the key starting materials in-house. It also has a 17 MW co-generation captive power plant.

**Adequate liquidity position:** IOL's liquidity position is adequate as reflected by the current ratio of 1.20x as on March 31, 2018 (PY: 1.22x). The average fund based limit utilization stood moderate at around 79% for trailing 12 months ending October 2018.

#### Key Rating Weaknesses

**Concentrated revenue stream:** The major revenue of the company is derived from the sales of Ibuprofen and ethyl acetate which exposes it to revenue concentration risk. However, the company is trying to mitigate the same by launching of new products in the drugs segment which includes metformin, fenofibrate, clopidogrel bisulphate.

**Raw material availability and price volatility risk:** Company is susceptible to key raw material prices i.e., alcohol and relies upon the market for its supply which may impact the operations of the company.

**Working capital intensive nature of operations:** The operations of the company are working capital intensive due to high inventory holding as some of the products viz. Iso Butyl Benzene, Acetyl Chloride and Mono Chloro Acetic Acid manufactured by it are captively consumed for manufacture of other products viz. Ibuprofen, resulting in relatively higher inventory period for finished goods. However, the inventory has been reduced sharply during the FY18 as compared to FY17 in value terms and number of days with increase in sales volume which resulted in shortening of working capital cycle during FY18.

**Analytical approach:** Standalone

#### About the Company

IOL was incorporated as a public limited company in September 29, 1986 by Mr. Varinder Gupta and Mr. Rajinder Gupta (promoter of Trident Limited, rated CARE AA-; Stable/ CARE A1+) to setup acetic acid manufacturing facility. IOL's manufacturing facility is located at Barnala, Punjab, having total capacity of 1,18,600 Metric Tonne Per Annum (MTPA) as on March 31, 2018. IOL is involved in manufacturing of Chemicals (Ethyl acetate, acetyl chloride, iso-butyl benzene etc.) and Active Pharmaceutical Ingredients (Ibuprofen, metformin, etc.).

Brief Financials (Rs. crore)	FY17 (A)	FY18 (A)
Total operating income	713.75	986.32
PBILDIT	103.52	126.33
PAT	4.67	27.70
Overall gearing (times)	2.49	2.09
Interest coverage (times)	1.53	1.96

A: Audited

**About CARE Ratings:**

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

**Disclaimer**

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
